

INTERNATIONAL TRAINING LEVANTE U.D.

LEVANTE UNIÓN DEPORTIVA

Levante UD is a centenary club, the dean of the Valencians. In 1909 the Real Gimnástico Club de Fútbol and the Fútbol Club Levante were founded, coinciding with the founding of the Valencian Football Federation. Both merged in 1939 under the name of Unión Deportiva Levante Gimnástico, becoming known as Levante Unión Deportiva in 1941.

Throughout its history, Levante UD has gone through difficult times, however, after 113 years, it is going through the best moment in its history. Consolidating year after year in the First Division, it is in a phase of both sporting and institutional growth.

VALENCIA, THE CITY THAT SAW US BORN

Levante UD is a team from the city of Valencia, one of the largest and most important cities in Spain, as it has 798,033 inhabitants and a metropolitan area of 1,774,201 inhabitants, which also makes it the third largest metropolitan area in Spain and one of the liveliest. Being located on the shores of the Mediterranean Sea, the province of Valencia has an important offer of sun and sand. Important International Fairs confirm that Valencia is one of the most dynamic cities in Spain.

Stroll through its streets and enjoy the abundant possibilities that the capital offers, such as trying the Valencian paella, exactly where it was born. Valencia stands out for its popular festivals in the city and surrounding towns, among which we cannot forget, above all, Las Fallas, impressive fiestas of light and fire that attract the attention of all its visitors.

VALENCIA AND IT'S PORT WILL REUNITE THROUGH LEVANTE U.D.

The club intends to provide the first team and the School with top-level facilities with this new location within the city of Valencia, very close to the port of Valencia. This project has seven 11-a-side soccer fields, with a specific area for the first team; a residence for 86 soccer players, a mini-stadium with capacity for 2,500 spectators, an 11-a-side soccer area, an 8-a-side soccer area and a social-administrative building that arises from the rehabilitation of the old Benimar School building.
